

# CHANGE MANAGEMENT USING AGILE & SCRUM

EXPERT PROFILE

## MUKHRAJ SABERWAL SINGH

Mukhraj has over 19 years of cross-functional experience in Project Management, Change Management and Business Analysis. His key strengths include Delivery Transformation, Business Analysis, Project Management, Technology Solution Architecture and Business Process Management.

Mukhraj Saberwal is currently working at Accenture India as Lead Solution Architect for global application outsourcing. Prior to Accenture, he was associated with Tata Consultancy Services – Asia's largest IT software services provider as Delivery Lead & Solution Architect for CPG & Retail Unit.

Mukhraj is an SAP Engagement Manager with 19 years of rich experience including 10 years of global experience in managing SAP projects spanning across USA, Europe and Asia with major IT consulting organizations. He is a certified consultant in SAP & Business Process Design and has been associated with various implementation, roll outs, and maintenance & production support engagements for clients across the globe across diverse industries like consumer goods, Oil & Gas & Hi Tech.

An industry veteran, he has a proven track record of adapting and implementing various modern change management methodologies including Agile and Scrum. Mukhraj is passionate about training and upskilling the next generation of change agents – He spends his weekends conducting hands-on workshops on Business Analysis, Project Management, Agile Change Management and SAP.
